About the Organization

Founded in 1906, Neighborhood House is a 501(c)3 nonprofit that provides culturally and linguistically relevant social services throughout Seattle and King County to help people achieve self-sufficiency. We serve over 15,000 people annually from low-income, public housing, immigrant, and refugee communities. Our programs address the needs of individuals and families to overcome their greatest challenges.

About the Event

Our annual breakfast fundraiser brings together over 500 of our region's business leaders, elected officials, foundations, advocates, and community members to empower our communities.

Breakfast sponsors play a crucial role in our community impact. Funds raised at the annual breakfast help individuals and families navigate housing, education, health, and social service systems so they can find jobs, secure safe places to live, lead healthier lives, and provide their children with resources to excel in school.

The breakfast is free to attend, and guests are encouraged to make a donation at the event.
